

SPECIMEN LABEL

Insect Growth Regulator Bait Formulation

For Control of Fire Ants in Noncropped
and Nongrazed Areas on the Farm,
Horse Farms, in Certain Nonbearing
Crops, and Home Lawns*

*For Application on Home Lawns by
Professionals, Use Award® Fire Ant Bait

Net Weight

Active Ingredient: Fenoxycarb: (Ethyl [2-(4-phenoxyphenoxy) ethyl] carbamate)	1%
Inert Ingredients:	99%
Total:	100%

One lb. contains 0.16 oz. active ingredient.

EPA Reg. No. 100-722-1386 EPA Est. 1386-OH-1

**KEEP OUT OF REACH OF
CHILDREN.
CAUTION**

See additional precautionary statements and directions for use inside booklet. CGPL 1L146 124

WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and **Buyer** assumes the risk of any use contrary to such directions. **Seller** makes no other express or implied warranty, including any other express or implied warranty of **Fitness** or of **Merchantability**, and no agent of **Seller** is authorized to do so except in writing with a specific reference to this warranty. In no event shall **Seller's** liability for any breach of warranty exceed the purchase price of the materials as to which a claim is made.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Waterproof gloves
- Shoes plus socks

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not reenter treated areas until application is complete.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL OR CROP INJURY.**General Information**

Logic Fire Ant Bait is an insect growth regulator with a mode of action specific to insects, and therefore has less influence on non-target organisms. Logic Fire Ant Bait is very easy and convenient to apply (see following use directions.)

Precautions: (1) Avoid application during excessively hot periods of the day or when the grass is wet. (2) Heavy rainfall within 2 or 3 hours of application may reduce effectiveness. (3) DO NOT APPLY TO PASTURE, RANGELAND, OR OTHER AREAS WHICH MAY BE GRAZED BY CATTLE, SHEEP, OR OTHER DOMESTIC ANIMALS, EXCEPT HORSE FARMS. SPECIFIC DIRECTIONS FOR USE ON HORSE FARMS FOLLOW.

Application Sites*

Logic Fire Ant Bait may be applied to the following nonbearing crops: apples, avocados, blueberries, carambola, citrus, guava, lychee, mangoes, mamey sapote, nectarines, peaches, pecans, plums, and West Indian cherry. Nonbearing crops are those that will not bear fruit for at least one year following application of Logic Fire Ant Bait.

Logic Fire Ant Bait may also be applied to home lawns and landscaped areas around the home.

Logic Fire Ant Bait may be applied to noncropped and nongrazed areas on the farm. Noncropped and nongrazed areas include areas around barns, outbuildings, fence rows, set aside acres, and other areas not grazed by livestock or used as crop land.

Logic Fire Ant Bait may be used on pasture, rangeland, or other grazed areas on horse farms **only** if horses are not used for human consumption.

***IN CALIFORNIA, THE USE OF LOGIC FIRE ANT BAIT IS CURRENTLY LIMITED TO USE ONLY ON HOME LAWNS AND IN THE LANDSCAPED AREAS AROUND THE HOME. DO NOT USE LOGIC FIRE ANT BAIT IN CALIFORNIA ON OTHER SITES.**

Precautions: (1) Application to nonbearing crops is permitted up to one year before the first harvest. (2) Do not apply to the specified nonbearing crop more than twice per year.

FIRE ANT CONTROL

Logic Fire Ant Bait is slow acting, but very effective for control of fire ants. Following application, Logic Fire Ant Bait is collected by worker ants and distributed throughout the colony. Within 4-8 weeks, there is considerable ant mortality and a continual decline of the fire ant colony. Applications made in the fall may take up to 12 weeks before decline of the colony occurs due to cooler weather.

Methods of Application

Apply Logic Fire Ant Bait when ants are actively foraging. This is usually when soil temperatures are above 60°F. Avoid application during excessively hot periods of the day or when grass or other vegetation is wet. Heavy rainfall within 2 or 3 hours of application may reduce effectiveness.

In cases where reinfestation occurs or when very large mounds remain active, retreatment may be desirable after 3-4 months.

Single Mound Treatment: Apply 1-3 level tablespoons of Logic Fire Ant Bait per mound, uniformly distributing material 3-4 feet around the mound. Do not contaminate kitchen utensils by use or storage.

Broadcast Application: Apply uniformly with ground equipment calibrated to give the correct dosage. Apply 1-1.5 lbs./A.

Aerial Application: Apply uniformly with aerial equipment calibrated to give the correct dosage. Apply 1-1.5 lbs./A. Do not apply when weather conditions favor drift from treated areas.

On home lawns and landscaped areas around the home

Apply as directed.

On noncropped and nongrazed areas of the farm and on horse farms

Noncropped and nongrazed areas of the farm include areas around barns, outbuildings, fence rows, set aside acres, and other areas not grazed by livestock or used as crop land.

Logic Fire Ant Bait may be applied to pastures, rangeland, and other grazed areas on horse farms **only** if horses are not used for human consumption.

Apply as directed above.

On nonbearing citrus, pecans, peaches, apples, nectarines, plums, mango, avocado, carambola, mamey sapote, guava, lychee, and blueberry

Nonbearing crops are those that will not bear fruit for at least one year following the application of the Logic Fire Ant Bait.

Apply as directed. For best results, apply Logic Fire Ant Bait in the spring prior to planting and make annual treatments each spring until one year before bearing. Fire ant control in the tropical crops may require spring and fall treatments of Logic because of year-long fire ant activity.

Precautions: (1) Do not apply within one year of the first harvest. (2) Do not apply to these nonbearing crops more than twice per year.

Storage and Disposal

Storage: Do not contaminate food or feed by storage or disposal. Store away from heat. Keep package dry.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent). Then puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, dispose of by incineration or burning. If container is burned, stay out of smoke from burning container.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during clean up and disposal of wastes. In the event of a major spill, fire, or other emergency, call 1-800-424-9300, day or night.

Precautionary Statements**Hazards to Humans and Domestic Animals****CAUTION**

Harmful if absorbed through skin or inhaled. Avoid breathing dust or contact with skin or clothing.

Statement of Practical Treatment

If in eyes: Immediately flush eyes with plenty of water. Get medical attention if irritation persists.

If on skin: Immediately flush skin with plenty of water. Get medical attention if irritation persists.

If inhaled: Remove victim to fresh air, or, if not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

Personal Protective Equipment**Applicators and other handlers must wear:**

- Long-sleeved shirt and long pants
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Control Statements

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

User Safety Recommendations**Users should:**

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Drift and runoff from treated areas may be hazardous to aquatic invertebrates in adjacent aquatic sites. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.
