

“Stop the slaughter of America’s horses.”

— Chief Arvol Looking Horse

19th Generation Keeper of the Sacred White Buffalo Calf Pipe

“We hunted the bison together, we fought battles, they transported our people to safe harbors. Throughout history the horse helped us survive. He was our spirit, a noble friend to the Nations of America.

“Today our horses are being slaughtered. Not put down gently with dignity and respect, but sold to kill buyers who transport them to slaughterhouses for human consumption overseas. The journey is often made under the most abusive conditions and the killing itself is often done with fear and disrespect.

“This must stop. We do not eat our horses. We never have. We do not breed them for food. We never have. A horse is a beautiful, trusting animal. We must protect them. Help us protect them.”

Help end the slaughter. Support the American Horse Slaughter Prevention Act (H.R. 857). It will ban the slaughter of horses for human consumption and prohibit live horses from being exported for the same purpose. This issue will not go away until the slaughterhouses are gone.

END THE SLAUGHTER.
